

Other Internet services we offer:

(1) Domain Registration

This gives ownership of the name “yourname.co.uk” or “org” or whatever you choose. The price varies depending on the extension eg .co.uk is the cheapest and .tv and .com are relatively expensive

(2) Web hosting

We can host your website there are different types of hosting available e.g.

Simple E-Mail hosting is £15 per year inclusive

Web space and E-Mail hosting is £50 a year inclusive

(3) Website design and authoring

Our prices start from £10 for a basic one page advert to sophisticated websites offering on-line sales etc. and costing thousands of pounds We can host and author **YOUR Website for a price YOU CAN AFFORD**

Also bear in mind that most sites require maintaining and updating so the information on the site is fresh and interesting

Please do contact us to arrange the best option for your needs

We can also offer more specialised services including dedicated servers and co-location—Please Call

- Call friends and family over your broadband connection with VOIP, at a very low cost compared to your standard BT rates.
- You can use numerous devices; Apple Macs, Game Consoles, Hand-held computers.

Broadband Without Limits!!

Per Month

Unlimited
Broadband

£17.95

FAQs

Why do you recommend a router?

We recommend a router because it increases security, makes a network connection possible and it's hardware firewall is superior to a software firewall.

Can I use a wireless network?

Yes you can. We can help you with this, but frankly wired is easier and has less problems, but we can help with wireless networks using mimo technology to achieve greater distance and speed of connection.

I have seen broadband at lower prices elsewhere, why should I use you?

Read the small print, most of our competitors have restrictions limiting the amount you can download etc. Our features and support we believe make us a "best value proposition" and we're easy to talk to for help and advice.

Other services we provide:

- Dial-up connections charged at a standard BT phone line rate.
- Routers programmed by us. Have all of your settings entered and ready to go!
- Competent staff to help. Speak to local or speak to India.
- Advice on Antivirus programs. We recommend these for safer and more productive web browsing.
